Hi Daniel

Before the shutdown, I was working on the determination document for P-19-0008. I have not finished it yet and the document need to pass the QA process before the signature. I am planning to do that this week but I have a lot to go through here. Today is my first day back from the shutdown.

The P-19-0009, I spoke with you on December 11, 2018 about the Eco risk that need to be mitigated. I have not seen any new information coming in yet. I was planning to call you once I finish checking all the emails to see if you got the information. Let me know.

Best regards,
